PurePro TL-Pro tankless water heater

## F.W. Webb continues to expand PurePro line

Established in 2004 by F.W. Webb, the PurePro® brand family now includes over **1,000 products** carefully selected for the plumbing, heating and cooling trades. From boilers, controls, and water heaters to faucets, water filtration and degreasers, our extensive offering continues to grow. Earlier this year F.W. Webb introduced the **PurePro TL-Pro tankless water heater**. These high-efficiency units are designed to meet the needs of both residential and commercial properties and are available in both condensing and non-condensing models for propane or natural gas. New this summer, you'll find boiler installation trim kits with press fittings (1" model PROPPBTK-1DLXPR, 1-1/4" model PROPPBTK-114DLXPR), and a new value-priced, 7-day programmable thermostat (model PRODP711U). Every product that bears the PurePro label is an unbeatable combination of quality, value, function, and warranty. And, of course, each is backed 100% by F.W. Webb. Learn more at [fwwebb.com/purepro](http://fwwebb.com/purepro).

**BEST OF BOSTON**  
**2018**  
AWARDED BY BOSTON MAGAZINE

## Showroom named Best of Boston

The Frank Webb Home showroom in South Boston has been named "**Best Bath Supply**" by *Boston magazine* in the annual Best of Boston® issue. The magazine's editorial team spends countless hours of research to compile the much awaited list that reflects the very best of what Boston has to offer. F.W. Webb operates 41 showrooms across the Northeast so you don't need to be in Boston to see why Frank Webb Home has been given this prestigious award. Plumbing contractors and your residential customers can conveniently find a location near you. Our experienced consultants are ready to work with you to help select the latest bath, kitchen and lighting products for your next project. Find a location at [frankwebb.com](http://frankwebb.com).

HVAC & Refrigeration

## Affinity Series

**The Affinity™ Series two-stage air conditioners are the outdoor section of a high efficiency cooling system.**

All models in this family are recognized as the ENERGY STAR® Most Efficient when used with the Affinity Hx™ Residential Communicating Control.

### QuietDrive™ System:

Features such as a swept-wing fan blade, composite base pan, and multi-density compressor cloak reduce sound levels to that of a mere conversation.

### Climate Set™ Humidity Control Profiles:

Fine tune the system's operation for either humid, dry, or normal climates (When paired with a variable speed indoor air mover).

### 2-Stage Protected Scroll Compressor:

Dynamically adjusts from 67% to 100% capacity to meet the needs of the indoor space. Protected by a suction accumulator tank.

### Time-saving features speed up installation:

- Independent panels.
- Full corner access to power and control wiring and unit interior.
- Factory installed copper (AC) or stainless steel (HP) filter drier.
- Secured corner base valves with clearance for low loss fittings.
- QR codes provide quick access to technical and warranty data.

### Warranty Summary

- Standard 5-Years parts/10-Years compressor limited warranty
- Extended 10-Years parts/Lifetime compressor with registration
- Premium System Warranty/Limited lifetime compressor warranty when registered online within 90 days of installation.

## Richie Deluxe Ratchet Hand Bender

**Easy one hand bending of 1/4" to 7/8" soft copper and soft aluminum**

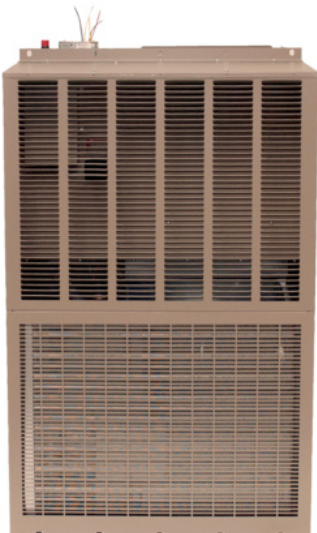

- Hard copper must be annealed before bending
- Quick change bending mandrels and shoes
- Trouble free ratchet mechanism
- Index marks to locate bends

#217188 RIT60331 Basic Kit

Includes all items required to bend 1/4", 5/16", 3/8", 1/2", 5/8", 3/4" and 7/8" tubing

## Comfort Pack

The Comfort Pack is a completely self-contained, pre-charged, heating and cooling system for each individual living unit in your multifamily complex. Since this product is completely self-contained there is no necessary brazing, charging or leak checking. This process has already been done for you at the factory. Every unit runs through an extensive quality control process where each unit is precisely charged, leak checked and ran in both cooling and heating to assure you that the product is ready for immediate installation.

The Comfort Pack eliminates the need of an outside condensing unit, external refrigerant lines, separate cooling coils as well as additional drain pans, making our Comfort Pack the optimal solution for multi-family construction.

HEATING & A/C EQUIPMENT

### Gas Heating

- Up to 51,000 BTUH Heating Capacity Output
- Direct Spark Ignition with Single Gas Orifice
- Viewing Sight Glass for Easy Diagnostics
- Sealed Combustion Chamber
- Standard 409 Stainless Steel Heat Exchanger
