

Valve Actuation Information

Service Conditions: (What is going through the valve)

Fluid: _____

Pressure: _____

Temperature: _____

Flow Rate: _____

Pressure Drop: _____ P_1 _____ P_2 _____

Cv: _____

Valve Requirements:

Line Size: _____

Valve Size: _____

Body Material: _____

Body Rating: _____

End Connection: _____

Actuator Requirements:

Pneumatic Air Supply PSI: _____ Double Acting: _____ Spring Return

Fail Position: _____

Electric: AC Voltage _____ Freq of Operation: _____

DC Voltage: _____ Heater: _____ Motor Break _____

Other options:

Positioner: Pneumatic: _____ Electro Pneumatic: _____ Range: _____

Solenoid Valve: _____ Voltage: _____ Enclosure NEMA: _____

Limit Switches: _____ Voltage: _____

Filter Regulator: _____ Gauge: _____
